About Little Changes Charity

- Little Changes Charity is a volunteer-driven development organization dedicated to Feeding, Reorienting, Educating, and Empowering impoverished children with great potential all around the slums of Lagos.
- Founded in 2018 we realize that over 9.43 million Nigerian youths are illiterate, not due to their own incompetency or laziness, but due to our country's failed educational system.
- We provide educational scholarships, clubs and activities for their psychological support and reorientation, and give children in the darkest of places the brightest of dreams.
- Working with our state and local governments, firms and likeminded individuals, we are raising a new generation of Nigerian leaders community by community.

Our Vision: To Change Africa one child at a time

Goals

- To significantly reduce the illiteracy rate among Nigerian youths.
- To provide quality education for impoverished children with potential.
- To improve our public schools education system.
- To empower impoverished children to go after their dreams.

❖ Strategy

By adopting an inside-out strategy, We work directly with individuals, local governments and firms -like you- in raising a new generation of Nigerian leaders community by community.

OUR FUTURE PROGRAMS

Chosen Gen

- ❖ Chosen Gen is set to be a paid after school club held at interested private secondary schools in Lagos.
- ❖ The club will teach its members how to be charitable and expose them to a lot of the problems in the society around them through both class discussions and volunteer tutorial trips to public schools.
- ❖ Members who sign up for the club will also be awarded community development hours based on their attendance record which will be very useful for them when applying to universities and other post secondary institutions.

NEW LCC CLUBHOUSE

- ✿ The new LCC Clubhouse is designed to be a supplemental learning center for children under the Success Club umbrella during weekends.
- ✿ We hope to situate in the heart of the ‘Onijegi ghetto’, Oniru Lagos, Nigeria in place of our present club house.
- ✿ It will be equipped with learning facilities like smart tabs and boards for virtual tutoring from any of our worldwide volunteers.
- ✿ ‘Club House Members’ will be selected on a need based and character evaluation basis with different sets yearly.
- ✿ All selected members will be automatic participants of yearly IWE-KIKO program.

Brainy Brunch

- ✿ Brainy brunch will be a free meal service for the first 20 children who get to school early each Friday.
- ✿ It will be available to public schools we partner with and be funded by both interested individuals and cooperations.
- ✿ This program hopes to metaphorically teach its various lucky participants the reward of showing up on time and will continue to expand in number of participants and weekdays.
